*As always it is a pleasure to offer a warm welcome to those entering the BTBA National Championships, an event with which we are delighted to be associated.*

*This year I am particularly pleased to be able to re-assure all concerned that the recent changes in Kettering affect the relationship of Brunswick with the Governing Body only by strengthening the links, already firmly established. Our commitment to you, the bowlers, through the BTBA is of paramount importance and our continued support unquestionable.*

*Brunswick will relentlessly pursue every avenue in an endeavour to be certain that bowlers have the standard and range of equipment they need and deserve, and Bowling International UK Ltd will provide a service second to none.*

*Good luck to you all and have a great tournament.*

*Terry Fawdington*

A message of Welcome  
from  
**Pat White**  
Chairman  
British Tenpin Bowling Association

Taking the Nationals to different centres around the country is a wonderful opportunity to meet our members and I know all of the A Team are looking forward to their first visit to Chester. I will certainly enjoy meeting old friends and welcoming new competitors.

I have no doubt that we will receive a welcome from Chester equal to the excellent standard set at Chelmsford last year and would like to thank Megabowl for their co-operation which is highly valued.

Brunswick are once again sponsoring our brochure and I would like to record our very grateful thanks for their continued support.

Finally, on behalf of the National Council I would like to express my very sincere wishes that participants and supporters alike have a thoroughly enjoyable weekend.

Welcome to the  
**41<sup>st</sup>**  
**BTBA NATIONAL  
CHAMPIONSHIPS**  
from  
**Bernie White**  
**Tournament Manager**

It has been a real pleasure to see so many entry forms from local bowlers, as well as those who are travelling long distances.

Whether your journey has been long or short, you are a first time participant or seasoned regular, you may be sure that I and my A Team will join with the Megabowl staff, doing our utmost to ensure you have a happy and successful tournament.

# MONSTER SCREAMR

**Out here everyone will hear you scream.**

Get ready for the sound and fury of the new Monster™ ScreamR™. Its performance, versatility and forgiveness demands to be heard and experienced. The new competitively-priced ScreamR features an advanced skid/snap coverstock formula to drive through the heads and deliver strong, back-end reactions. It also incorporates a low-RG core system to keep reaction smooth, forgiving and under control. The result is versatility and forgiveness usually only heard of in higher-priced, reactive designs.

*The new Monster ScreamR from Brunswick – ready to make your game one long scream.*

Coverstock: Reactive | Hook Potential: 80 | Length: 140 | Breakpoint Shape: 85 | Weight Options: 10-16 lbs.

## Leave your mark.

**Introducing the Fuze™ Aggressive Reactive Raging Red – Now you're playing with fire!**

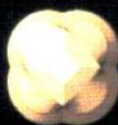

Leave your mark and leave the competition behind with the new Fuze Aggressive Reactive Raging Red from Brunswick. A next generation Aggressive Reactive coverstock and geometrically balanced core technology gives you more traction in the oil and a stronger reaction in high friction areas leading to high hook potentials and explosive backends – the perfect combination for medium-dry to medium-oily conditions. From Proactive® to Aggressive Reactive to Extra Length Reactive, there's a Fuze ball that's perfect for every lane condition.

Fuze Reactive Purple Pearl

Mirror imaged top and bottom sections.

Four-sided symmetry.

High Density

Low Density

Perimeter top weight control.

Aggressive Reactive coverstock.

Fuze Proactive Navy Sparkle

New Fuze technology uses top-to-bottom, geometrically balanced construction to provide increased rotational stability... shot after shot.

*The Very Best of Bowling and a **SUCCESSFUL** Year*  
B.T.B.A. Chairman, National Council  
& Head Office Staff

plastic slips. Groove grips. And grip is exactly what you need to improve your game. When you're ready to step up from plastic, get in the Groove." — Kim Adler

**WHO:** Beginners, Those Getting Serious About Bowling.

**WHAT:** Groove™: Entry-Level Urethane Balls

## Step Up From Plastic. Get In The Groove.

For bowlers stepping up from plastic looking for higher scores, Brunswick delivers with Groove. More grip. Better control. Higher averages. Groove's urethane coverstocks outperform plastic on every lane surface. When you want to get serious, get in the Groove.

### V3 Dynamic Reactive

**PART NUMBER** 60-103495/Blackberry Sparkle

The V3 provides a strong combination of length, with extra traction and hook on the back-end. The secret: V3's exclusive puck in the bottom of the core increases the RG (for length) and provides a higher RG Differential for more snap on the back-end.

**Coverstock:** Reactive Urethane  
**Factory Finish:** Polished  
**Hardness:** 76-78  
**RG Max:** 2.701  
**RG Min:** 2.665  
**RG Diff:** 0.036  
**RG Avg:** 8.0  
**Hook Potential:** 70  
**Length:** 170  
**Breakpoint Shape:** 70  
**Weight Options:** 10-16 lbs.

### V2 Reactive

**PART NUMBER** 60-103491/Blue Pearl/Orange Sparkle GLOW  
 60-103492/Jade Pearl GLOW

Available in Blue Sparkle/Orange Pearl or Jade Pearl, the Groove V2 delivers less of a hook than the V3, but more than the conventional V1. Power players will love them on wet/dry and light/dry conditions. Rev-challenged players will love them on drier patterns.

**Coverstock:** Reactive Urethane  
**Factory Finish:** Polished  
**Hardness:** 76-78  
**RG Max:** 2.690  
**RG Min:** 2.673  
**RG Diff:** 0.017  
**RG Avg:** 8.0  
**Hook Potential:** 60  
**Length:** 195  
**Breakpoint Shape:** 60  
**Weight Options:** 10-16 lbs.

### V1 Urethane

**PART NUMBER** 60-103489/Blue Sanded 60-103494/Cranberry Pearl

Available in Blue Sanded or Cranberry Pearl, the Groove V1 is the perfect step-up from plastic (increasing both traction and hooking action). It's the most affordable urethane in the line, perfect for medium to drier lane conditions. Best of all, Groove outperforms and underprices the competition.

**Coverstock:** Urethane  
**Hardness:** 79-81  
**RG Max:** 2.703  
**RG Min:** 2.684  
**RG Diff:** 0.019  
**RG Avg:** 8.3  
**Hook Potential:** 50  
**Length:** 210  
**Breakpoint Shape:** 40  
**Weight Options:** 10-16 lbs.

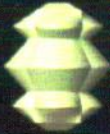

DETONATOR

## Blow them away.

The new Fuze™ Detonator™ sets off a deadly combination of explosive hooking action and unparalleled forgiveness by fusing Brunswick's Proactive/Particle technology with their newest Aggressive Reactive coverstock base. This high-load Proactive coverstock provides excellent traction in oiled areas of the lane while still generating strong, smooth reactions from drier outside boards to minimize over/under reactions on varying lane conditions. The Geometrically-Balanced Core Concept also enhances mid-lane recovery and breakpoint control for every type of bowler competing on medium to heavily oiled lane conditions.
